## THE POLAND REPORT.

We are not disposed to join in the adverse criticism which has been showered upon the report of the Poland Credit Mobilier committee, for we believe that the task imposed upon it has been one of the most complicated and difficult that ever devolved upon a Congressional committee. While public opinion has readily rendered a verdict upon the prominent cases of moral delinquency, which are made to fill the gaps in the direct evidence, the committee had to deal with established facts on which the House would be justified in taking formal action. An examination of the case will, we think, convince the candid mind that in dealing with the evidence in its possession, the committee have not been inclined to leniency, but on the contrary that their recommendations stretch the authority of Congress to its utmost limit, if not beyond.

We noticed a great deal of complaint because all the members in any way connected with these transactions were not included with Ames and Brooks in the recommendation for expulsion. A moment's reflection it seems to us must convince any unprejudiced person that whatever opinion individuals may entertain of the strict propriety of such investments, there is not the slightest *proof* of corrupt motive or action on the part of the members in question, which would justify the House in resorting to the extreme measure of expulsion. And even in the cases of Ames and Brooks in which the evidence is far more conclusive, there is serious doubt as to the jurisdiction of the present House. So far from taking its duty through leniency towards those men whose actual culpability must be entirely inferred, we think the committee have entered upon even dangerous ground in recommending the expulsion of Ames and Brooks. We are inclined to give due weight to the opinions of the committee, which comprises so many able lawyers and experienced parliamentarians; but their argument in favor of joining together the conduct of members long prior to their election and membership of the present Congress, does not satisfy our serious doubts as to its soundness and safety. Had the charges against Ames and Brooks been made and the same proofs now adduced been brought directly to the knowledge of their constituents, and had those constituents elected them notwithstanding, we presume that no Congress would claim authority to nullify the popular verdict by expelling the members for offences thus condoned by the people of their districts. In the present case, the constituents assume that the constituents are ignorant of the facts and this assumption too appears to be their strongest argument. It will be readily perceived that the precedent thus established that Congress may exercise its judgment as to whether certain facts in the history of a member were known to those who voted for him, and that on this opinion it may be expelled for something which occurred prior to his election, might be a most dangerous power in the hands of a large majority. For a number of years the Republicans have had more than two-thirds votes in the House, and upon the principle involved in this proposition, it might have succeeded in another against whose former life a scandal could be raked up. The Democratic Journals which are clamoring for more victims, if they will examine the bearings of this matter a little more closely, will find a most dangerous element of Centralization in the assumption by Congress of the power to review the choice of the people at a regular biennial election. Of course no one will complain that either Ames or Brooks, if found guilty, severely punished by expulsion, and so in punishment would be too dearly purchased by establishing a precedent of questionable propriety and susceptible of serious abuse.

Those considerations, even without the particular course threatened by the Democrats in consequence for the disgrace of one of their leaders, will, we believe, exert a strong influence against the adoption of the resolutions expelling Ames and Brooks. We shall be glad to see them turned out of Congress if it can be done legally and properly; but if the House fails to vote for their expulsion we shall regard it as evidence, not that their offences are underestimated, but that members are unwilling to establish a precedent which may lead to serious troubles in the future.

THE BANGOR & PISCATAQUIS RAILROAD. We understand that the officers of the European & North American Railway Company have submitted another proposition to the City Government, for the purchase of the Bangor & Piscataquis Railroad. The proposition has not been made public, as the Committee have not yet had an opportunity to consider it, but from such information as we can gather, we have reason to believe that the E. & N. A. R. Co., propose to take a perpetual lease of the B. & P. Railroad, on substantially the following terms:

The E. & N. A. R. Co., to pay all the coupons on the $722,000 of bonds issued by the City in aid of the construction of the B. & P. R. R., as they mature, and to provide for and pay the said bonds at maturity.

The amount due the City on account of coupons paid by the City for the B. & P. R. R. Co., on its bonds, to be paid by the promissory note of the E. & N. A. R. Co., on twenty years with semi annual interest.

The note given by the Directors of the B. & P. R. R. Co., for $100,000, held by the Savings Bank, to be paid by the E. & N. A. Co., the surrender of second mortgage bonds of the B. & P. R. R. Co., held by the bank as collateral, to pass to the E. & N. A. Co., on payment of the note, that Company assuming all responsibility for those bonds and their coupons.

The $200,000 of stock of the B. & P. R. R. Co., owned by the City to be placed in the hands of a trustee, to be voted upon by him or by proxy at stockholders' meetings as required by the E. & N. A. R. Co., for the period of six years from date of lease, when the stock shall become the property of the E. & N. A. R. Co.

The leasing Company to guarantee to keep the road in good order and condition in all respects, and to keep the bridges, station houses etc., suitably insured. The present Board of Directors of the B. & P. R. R. Co., to resign, of course, upon the execution of the lease, to give place to officers chosen under the new condition of its affairs.

We understand that this proposition fly the management of the E. & N. A. Co., if accepted by the City, will at once be submitted to its stockholders for ratification. The proposition will be considered by the Special Committee having these matters in charge, and will be submitted to the City Council at the meeting on Thursday evening next.

The Boston *Globe* quotes the following specimen of balderdash concerning the Poland report from "the paper founded by Horace Greeley and foundered by somebody else":

"Pass no resolution, drop it where it is. Remand the whole business to the people. You have only scratched the surface of the whole enquiry—leave it now. Face outward, march!"

It is now intimated that Senator Bogy, of Missouri, is to be a rival of Gov. Hendricks for the Democratic Presidential nomination in 1876, which looks like counting chickens before the eggs are laid.

## NEWS BREVITIES.

The cattle in and around Newark, N. J., are suffering from a pneumonical epidemic.

A Topeka letter says that Rev. Isaac S. Kalloch, formerly of Boston, is the confidential adviser of Pomeroy.

Charles Hull, Postmaster at Hillsboro' Bridge, N. H., has been arrested for robbing the mails.

As a family disturbance in Brooklyn, N. Y., Friday night, Mary McGlynn was beaten to death by her step-son.

The rain of Friday opened a channel through the ice-gorge at Fairmount, near Philadelphia, and the ice below is breaking up and floating down without damage.

One of those "reliable" Washington speculists says it is believed that the House Committee will report in favor of impeaching Vice-President Colfax.

Senator Wood said on Friday in the Albany Legislature that over two millions had been voted and given by the State within a few years for quarantine purposes in the bay of New York.

There is great excitement in the Philadelphia petroleum market and 90,000 bbls have been sold at 18 cts. for February and March; 19½ for April and 19¾ to 20 for May deliveries.

Concert Hall building in New Bedford, Mass., occupied by several stores, was burned on Saturday. Loss heavy, but mostly insured.

Wm. Semmes fatally wounded himself with a pistol in a bagnio in Washington, Friday night, while officers were searching the house for him, he having robbed a man in whose family he recently boarded.

The residence of President Grant near St. Louis, known as the old "Dent Homestead," was totally destroyed by fire Friday afternoon. There is said to be no insurance.

A dredging machine at San Francisco Friday, brought to the surface the body of an unknown man, respectably dressed, with the throat cut from ear to ear and fifty pounds of pig iron attached to the body.

Senator Patterson on Saturday testified that he had no recollection of ever having seen the letter of Morton, Bliss & Co., addressed to him May 12th, 1871, on the receipt given Ames by that firm. The stock certificate he never saw until a few days ago.

James M. Brown, chairman of the New York Committee of Seventy, is to preside at the anti charter meeting, Tuesday night. Speeches will be made, among others by Theodore Dwight, Joseph H. Choate and Jackson Schultz.

The Tribune's Washington special says that Manton Marble and W. B. Reed of the Herald, have been summoned to testify as to their statement that Thaddeus Stevens received $30,000 for his services in securing the passage of the Pacific Railroad bill in 1862 and 1864.

During last year 241,881 alien passengers arrived at the port of New York, being an increase of 64,942 over the arrivals in 1871. The reduction of the head money from $2.50 to $.50, which took place two years ago the Commissioners say, has proved an injudicious measure.

The London *Times* has advices from Spain to the effect that partizan agitation is beginning to make itself felt in the new Republic and throughout the Iberian Peninsula. Portugal is arming in anticipation of a civil commotion. The news is that the federalists are every where in the ascendant.

POPULAR GAMBLING DEVICES. In his last annual message Governor Washburn of Wisconsin, calls especial attention to the pernicious influence of the various forms of gambling presented under the guise of respectability and suggests the importance of suppressing practices which furnish the gaming table with so many recruits. He says:

"The laws of the State, as applicable to professional gamblers, are doubtless full sufficient, and only require to be enforced. But some law seems to be required to break up the schools where gamblers are made. These are everywhere. Even the church (un wittingly no doubt) is sometimes found doing the work of the devil. Gift concerts, gift enterprises and raffles, sometimes in aid of religious and charitable objects, but often for less worthy objects, lotteries, prize packages, etc., are all devices to obtain money without value received. Nothing is so demoralizing or intoxicating to the young, as the acquisition of money or property without labor. If you can devise some law to break up these practices, and bring them into disrepute, you will deserve the thanks of all good people."

The crop movement since August 1, 1872, at lake ports, aggregates 32,550,152 bushels against 30,355,405 bushels in 1871-72, and the visible supply February 8, 1873, was 6,016,778 bushels against 10,532,309 bushels February 10, 1872. The returns of the agricultural department make the wheat crop, including winter and spring, in the Northwestern States, in 1872, 145,656,150 bushels against 145,386,000 bushels in 1871, which with the crop in the Middle and Eastern States, shows a deficiency in the aggregate of 15,731,550 bushels. The wheat crop of Canada in 1872 was deficient, and her requirements will be much above the average. The exports of wheat from the new crop since September 1, from Atlantic seaports, flour included, have been 9,187,598 bushels against 11,805,945 bushels for the corresponding period in 1871-72. The deficiency in the winter wheat crop. It is expected that winter wheat flour will be in comparatively limited supply, and higher prices are expected to be realized for home consumption than shippers can pay at the ruling prices in European markets, while the West India and South American markets will be supplied in competition with the home demand. The stocks of wheat, four inch depth, in the principal countries, on the 31st of December, 1872, aggregated, including the quantity in transit for the United Kingdom, 34,758,731 bushels, against 62,552,398 bushels December 1, 1871, including a deficiency in the principal countries of stocks in granary at the principal points of accumulation of only 7,783,654 bushels, or less than 1,000,000 quarters. The annual maximum wants of the United Kingdom are estimated at 22,000,000 quarters, or 178,000,000 bushels. Estimating the home crop of the United Kingdom at 9,000,000 quarters, and adding to it the imports from September 1 to January 18, and the amount in transit for the United Kingdom, and 16,000,136 quarters or 128,001,088 bushels of the 178,000,000 bushels are already provided for, leaving to be provided about 50,000,000 bushels from January 18 to August 31, 1873, which Great Britain expects to get at about the present ruling prices

BOWDOIN ALUMNI IN NEW YORK. Although President Chamberlain and Professor Henry W. Longfellow were not present at the Bowdoin College alumni dinner in New York Friday night, as expected, a goodly number of prominent graduates and a genial company were present. W. Prentiss presided, and around the board were Professor Hitchcock, the Rev. Dr. Adams, the Rev. Dr. Henry B. Smith, the Rev. Henry Field and others. At the business meeting which proceeded the dinner, Thomas H. Hubbard, son of ex-Gov. Hubbard, was elected President for the new year, James McKean Secretary, W. A. Abbott Treasurer, and Granville P. Hawes, Dr. B. F. Baker, Augustus F. Libby, and S. C. Pessenden Executive Committee. Resolutions were adopted on the death of Professor Thomas C. Upham and the late George P. Putnam, the publisher, who was a graduate of this College.

The following record of female avocations in the United States is taken from the recent census returns: Independent of woman farmers there are 45 female stock farmers, 6 apprentices to barbers, 24 dentists, 2 hostlers, 2 [illegible], 5 lawyers, 525 physicians and surgeons, 67 clergymen, 2 scavengers, 7 sextons, 10 "canalmen," 196 "draymen," 1 pilot, 6 guano laborers, 4 gas-stokers 23 gunsmiths, 7 gunpowder makers, and 16 ship-riggers.

Texas would evidently be a good place for those who are afraid of Prussianizing the Republic by extending the influences of education. Its Legislature has a majority in favor of abolishing the free school system established under the late administration of the State, through the suspension of the collection of the school tax. The school population of Texas is 220,568, with an adult illiteracy of 70,895 whites, and 150,617 blacks. Its total population is 818,579, with an area of 237,321 square miles. In all this territory, and for all these people, in 1870, there were but two free school buildings. In spite of great political opposition and violence toward teachers, the first season's work of the State superintendent of education resulted in the establishment of 1024 schools, with an enrolment of 68,504. The present season opened with an enrolment of 117,000 pupils. All this will be now, it seems, to be undone, and the new era of hope and promise which has dawned upon the State is to be brought to a dark end close.

WASHINGTON'S BIRTHDAY. Nearly all places of business in New York city were closed on the 22d. Flags were flying from house tops and the shipping in the harbor was gay with all colors of different nations. Salutes were fired from the forts, and the American Associations paraded. A noon Trinity chimes rang different patriotic tunes and the day was generally observed as a holiday.

In Philadelphia salutes were fired in the morning, flags were displayed in all parts of the city and the holiday was very generally observed.

SALMON IN THE RIVERS OF CONNECTICUT. Arrangements have been completed for placing about 280,000 salmon fry in the rivers of Connecticut by the State authorities. The eggs will be hatched in April, and the young fry, so soon as they are able to obtain their own food, will be placed in the various streams of the State and in the head waters of the Connecticut river. The owners of dams on the river have agreed to construct fish ways, except the Holyoke Water Power Company, which refused to do so, but by a recent decision of the Supreme Court at Washington will be obliged to do so. The prospect now is that these streams will before many years possess a numerous and lively population of the salmon tribe.

THE FOREIGN COMMERCE OF NEW YORK. The entries for consumption of general merchandize at the port of New York during January were about $60,000,000 less than for the corresponding month of last year, but were some $5,000,000 in excess of 1871. The total imports for the month show an excess of $2,000,000 over 1872, and $9,000,000 over 1871. The withdrawals from warehouse show a considerable deficit as compared with the preceding years which is not, however, out of proportion with the reduced quality entered for bond, the stock in bond being increased more this year than in either 1872 or 1871.

As an instance of the remarkable amount of freight traffic on the New York Central railroad, it is stated that the freight cars of the corporation, if stretched along in line, would extend eighty miles; and that, of these, sixteen miles, or one fifth of all the cars, are in daily use.

Consumption can be Cured. SCHENCK'S PULMONIC SYRUP, SCHENCK'S SEAWEED TONIC, SCHENCK'S MANDRAKE PILLS, Are the only medicines that will cure Pulmonary Consumption. Sometimes medicines that will stop a cough will often, cause the death of the patient. It locks up the liver, stops the circulation of the blood, hemorrhage follows, and, in fact, clogging the action of the very organs that caused the cough. Liver complaint and dyspepsia are the causes of two thirds of the cases of consumption. Many are now complaining with dull pain in the side, the bowels sometimes costive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling uncomfortable very restless, and at other times drowsy; the food that is taken lies heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach or torpid liver. Persons so affected, if they take one or two boxes of these pills, and if the cough is the cause be suddenly stopped, the lungs, liver and stomach clog, and remain torpid and inactive, and before the patient is aware of his situation, the lungs are a mass of sores, and ulcerated, and death is the inevitable result. Schenck's Pulmonic Syrup is an expectorant which does not contain any opium, nor anything calculated to shock a cough suddenly. Schenck's Seaweed Tonic dissolves the food, mixes with the gastric juice of the stomach, digests easily, nourishes the system, and creates a healthy circulation of the blood. When the bowels are costive, skin sallow, and the patient is of a bilious habit, Schenck's Mandrake Pills are required. These medicines are prepared by Dr. J. H. SCHENCK & SON, Northeast corner of Sixth and Arch streets, Philadelphia, Penn., and for sale by GEO. D. GOODWIN & CO., Hanover street, Boston, & JOHN F. Many speeches were made, and in the course of one by Senor De Corto he said that he looked upon the establishment of a Republic as the virtual abolition of slavery in all the Spanish dependencies. During the evening a telegram was sent to the Cabinet and people of Spain congratulating them upon the establishment of a Republican form of government and assuring them of the hearty sympathy and support of all Spaniards in America.

A STREET FIGHT.

At the close of the parade of the Order of United American Mechanics yesterday, and while one Lodge was returning home, a Third Avenue car was driven into the rear of the procession. The Mechanics retaliated and made an attack on the car, using roughly two passengers who persisted in hooting the processionists, and chasing the driver from his seat. Others coming to the assistance of the anti processionists, a brisk fist fight was kept up for a short time, but three police on duty in the neighborhood ran to the scene of disturbance and succeeded in separating the combatants. When the processionists resumed their march the men arrested were released from the officers by the surging mass. News of the row was brought to Police Headquarters, and Superintendent Kelso ordered out the detective force and telegraphed for the reserves of the adjoining precincts. The police soon reached the disturbed locality, but the fight was over. The driver of the car and the Marshal of the Lodge are blamed for the disturbance.

FEELING AMONG MEMBERS OF THE HOUSE ON THE POLAND COMMITTEE'S RESOLUTIONS.

No members of the House believe that the resolutions by the Poland Committee recommending the expulsion of Ames and Brooks can secure even a majority of the House, much less the two-thirds vote required by the Constitution. Some members of both political parties express the opinion that instead, a general resolution of censure will be passed, affecting all the members of the House concerned in Credit Mobilier operations. At least twenty gentlemen are prepared to speak on the subject, and everybody anticipates exciting proceedings next Tuesday.

LOUISIANA.

DISORDERS IMPENDING—THE WARMOUTHITES ORGANIZING REVOLUTION.

NEW YORK, 22. The Times' New Orleans dispatch says that Morton's report to Congress receives unanimous Republican commendation except that portion relative to Judge Durell's action. In consequence of a dispatch to McEnery from Warmouth Thursday night urging action, McEnery organized an auxiliary battalion and a police force, and arranged to seize the whole bench of the Superior Court, besides seizing the Kellogg members returned by both boards, on Friday morning; but the Mayor, Chief of Police, and the entire city government promptly interfered, and prevented the carrying out of the plot. At noon, Friday, the McEnery body ordered its Sergeant-at-Arms to arrest and bring before it Collector Casey as a witness in the returning board case.

PLOT TO OVERCOME THE POLICE.

A later dispatch to the Times, dated New Orleans, 1:30 last night, says that the McEnery Legislature has postponed their proposed action, but still avow the intention to arrest the members of the Kellogg Legislature, and a plot has been discovered to seize all the police stations. In resistance will be made to all the plots, and the police are armed with repeating rifles. The City Council ignores the McEnery Legislature.

MCENERY THREATENS INSURRECTION.

McEnery stated Friday that if Kellogg's crowd passes an appropriation bill they shall never collect the taxes. The people of the State will rise up in revolution in opposition to Kellogg, and the United States forces, if they assist him. He said: "I shall see the people protected, and it will take more regulars than they have to whip us."

THE EX-REBELS ORGANIZING.

The despatch states that the rebel organizations are preparing for the coming struggle and the issue will be on the collection of taxes.

FROM THE PACIFIC COAST.

She was to have returned before the time mentioned.

The Peace Commission were at Cottonwood Creek, forty miles north of Yreka.—They are divided in three councils. Mr Case insists on unconditional surrender. Meacham and Applegate thinks the Modocs have been badly treated. The Superintendent of Indian affairs has been sent for which Meacham favored and Applegate opposed. The people there have no hope of peace as terms are likely to be offered and doubt whether Meacham and Applegate can get a talk with Capt. Jack.

CONSIDERING THE QUESTION OF A MINISTERIAL CRISIS.

MADRID, Feb. 23. Separate meetings of the Republicans and Radical deputies in the Assembly were held yesterday, followed by a council of the minority to solve the ministerial crisis. The subject was subsequently considered at a sitting of the Assembly in the evening. It is probable that these deliberations will result in the forming of a cabinet wholly Republican.

BEANS The best quality of yellow eyed beans are selling at $2.00, and the best hand-picked pea beans at $2.00 to $2.25 per bushel.

BUTTER. The butter market remains about the same as for last two weeks past, a right nice gilt edge article being extremely scarce, and the price paid for such would depend somewhat upon the wants of the purchaser. A good article for a fair article of firm butter is for moderate supply and sells at 32 to 35 and 38 cents per pound. Solid butter is worth from 25 to 30, and when the dealers would stand from 28 to 30 cents per pound.

EGGS are selling on the market in small lots at 28 cents per dozen, but intent travelling and warmer weather will some place them on the market in greater quantity, and at less price.

POTATOES have not been brought in of late in much larger quantity than to supply the retail trade, and have sold during the week from 65 to 70 and 75 cents per bushel.

APPLES Green apples are worth on the market from $2.00 to $2.50 and $3.00 per barrel for a good fair article up to the best quality.

DRIED APPLES Home raised fruit has not been on the market in anything near the quantity that it was supposed it would be earlier in the season. But Western fruit seems to have somewhat regulated the price. They are worth from 8 to 8¾ and 9 cents per pound.

CIDER is brought into market nearly by contract being sold at 20 to 25 cents per gallon, barrels extra.

BUCK is not and plenty on the market on account of the unusually wet season. It is worth in bulk or pails, from 20 to 25 cents, and in small boxes from 25 to 30 cents per pound.

POULTRY is now being brought into market in light supply and good kinds of meat are in ready demand for sale. Turkeys are worth from 18 to 20 and 22 cents per pound and Chickens 18 to 20 and 25 cents per pound Geese are worth 22¾ cents per pound Ducks at 20 cents to $1.00 per pair.

DRESSED HOGS. Fat young corn fish are worth on the market from 5 to 7 cents dressed weight, from 10 to 12 cents per pound, but cattle are not over plenty. Calves are dull and sell under the dressing quality at 10 to 11 cents per pound.

DRESSED MEAT. Beef logs are plenty on the market and sell at from 5 to 7 cents per pound. Mutton logs are worth from 7 to 8 cents per pound. Veal logs have been quite plenty and sell at 7 to 8 cents per pound.

FUEL. Hard wood sells at $6.50 a $7.00 per cord, and soft wood at $5.50 to $6.00 per cord. Hard wood sawed and split is worth from $7.50 to $8.00 per cord.

FASHION. The Hibernian Dramatic Club have postponed the presentation of the comedy "Fashion" at Oldtown this evening, as it would be doubtful as to their arrival there in time to make the necessary preparations for the evening. We understand that they are to reproduce the piece here in a few weeks, and a full house is sure to greet them, judging from the very favorable opinions expressed by those present on Friday evening.

NOT QUITE A FIRE. A dense smoke filled the audience room and pouring out of the windows of the Central Church yesterday morning startled passers by, who raised an alarm of fire. The department as usual turned out promptly, but its services were not needed, as the smoke arose from some wood which had been placed in the "hot-air box" of the furnace and forgotten until its "cooking" produced the smoke which alarmed everybody in the neighborhood.

ALMOST A FIRE. About ten o'clock on Saturday night some young men coming down Washington st., saw a bright light in L. D. Higgins' blacksmith shop which appeared to be on fire inside. Two of them tried to effect an entrance w ile the others started to notify the police, whereupon officers Baker and Graves went into the building and discovered that a box containing ashes had taken fire and was burning furiously. They threw it out into the snow and prevented a conflagration and the turning out of the Fire Department.

THE SNOW STORM.

HOW IT STRUCK AND STUCK THIS CITY—THE FIGHT OF THE SHOVEL BRIGADE—THE STAGES DELAYED—DITTO THE TRAINS—ACCIDENT ON THE MAINE CENTRAL, ETC., ETC., ETC.

The snow storm which so quietly commenced early Friday evening promised to be nothing unusual, and no one supposed it would exceed any that have preceded it, but before midnight the northeast wind accompanying it increased to a perfect gale. All the remainder of the night "it snew and blew," and with the exception of an hour or so in the forenoon, the storm continued till the middle of Saturday afternoon, when it reluctantly cleared away. Nearly two feet of snow fell on a level—that is, there would have been that amount if it had remained on a level, for we doubt if a single snow-flake remained where it fell, so powerful was the gale. Drifts of astonishing height were piled up on every hand; the streets were buried under unknown depths, and the snow-plow, drawn by four huge horses hitched up tandem, though perambulating all over the city most of the day, failed to find the sidewalk except in spots where the wind had been sweeping.

Armies of shovellers were busy all day Saturday, and yesterday it was necessary to do their work over again, the wind during the night having thrown the light snow back in drifts fully equal to those first deposited. Roofs were covered with banks so deep that it was requisite for their safety to clear them off, and otherwise unemployed men reaped a rich harvest of money.

[illegible]

The St. Louis Republican Office has [illegible]

their trips altogether. The Ellsworth stage arrived Saturday morning, but two and a half hours late, as the storm was not so heavy in that direction. The Bucksport stage left on time, but returned after reaching Brewer village, and yesterday morning the driver made another start in a single team, hoping to get through. The Dixmont stage which returned after an ineffectual start Saturday, tried it again yesterday morning, and as it had not returned last night, we presume it got a fair start. The Corinth stage came in Saturday and left as usual; that from Exeter arrived four hours late, and did not attempt to return, but will try to-day. Up to 5 o'clock yesterday afternoon the Monroe, Bradford, and South Levant, Dixmont, Castine and Belfast stages, due Saturday had not arrived. The Aurora stage, due at 11 A. M., arrived at 5 P. M. Saturday. The driver reports that the road between this city and Eddington Bend has not been so badly drifted for twenty years.

The trains had an equally hard time with the stages. The Bangor & Piscataquis train from Dover arrived here about 11 o'clock Saturday forenoon, and immediately returned to Oldtown, where another train was made up of three engines, with a snow-plow and mail car, which left that place for Dover at 3 P. M. After going six miles the train found an unconquerable drift, and returned to Oldtown, where it stopped until yesterday forenoon. At 10.30 A. M. another start Dover-ward was made, this time with a full supply shovellers and provisions to feed them.

The E. & N. A. train from St. John, due here 6.12 P. M. Saturday, was detained some by the snow, and got off the track at Bluehill, which delayed its arrival until 1 o'clock yesterday morning. No train left for St. John until 1 P. M. On the New Brunswick end of the road the storm was not so heavy, and we understand that it was mostly rain in St. John. The Superintendent started a train, consisting of three engines, with snow plow and flanger, and a large force of laborers soon after sunrise yesterday, to endeavor to clear the track.

The train on the New Brunswick & Canada Railway, which left St. Stephen Saturday morning, had reached McAdam Junction at 9 o'clock yesterday morning, after working hard all night.

No night express train from Boston came to this city Saturday or Sunday mornings. That which left here Friday night got no farther than Clinton, where it stopped in a siding until Saturday morning, taking a fresh start then. This train, together with the train for Boston which left this city about four hours late Saturday forenoon, had reached Portland yesterday afternoon, after numerous mishaps, none of which were serious, however.

The trains coming east fared worse, however. Shortly after 2 o'clock yesterday afternoon there was a sort of camp-meeting of passenger trains at Waterville, and at 3 o'clock Conductor Gray's train, the night express that left Boston Friday night, the express which left Boston at 8.30 Saturday morning, and the night express from Boston which should have arrived here yesterday morning, "consolidated," and in charge of Conductor Gray started for this city. When about a mile beyond Burnham, (or twelve miles from Waterville), while the three locomotives were going into a drift at full speed, two of them and the snow-plow, which was ahead, went off the track into the ditch. Alonzo Towle, engineer of the "Gold Hunter," was slightly injured, as also was J. Lucy, fireman of the shifting engine from this city. Engineer Sinclair, of the "N. R. Bontelle," was severely bruised and is feared seriously injured internally.

A man was immediately sent to Burnham station and a dispatch forwarded to Waterville for assistance, which was sent as soon as possible. Meanwhile the wind which had been blowing all day, had increased in force, and the drifts were growing deeper and deeper, rendering it more dangerous than ever to proceed.

At 11 P. M. the consolidated train with five engines was still at Burnham.

At 2:30 this A. M. the consolidated train left Newport on its way to this city.

POLITICAL AND PERSONAL.

Colfax's South Bend, Ind., neighbors are preparing him an ovation for his return.

Oakes Ames is said to compare the Poland report to the conviction of a man for murder, without finding the corpse of his victim.

The best the *Post* can say for the Democratic nominations in Connecticut is that Ingersoll "is supported by a ticket of excellent construction and unimpeachable merit throughout."

The St. Louis *Republican* says of the Bogy investigation: "It is not maintained that the additional facts and circumstances show the Colonel to have been guilty, and we are far from making the charge; but they do show the investigation has not been thorough, and so make the new Senator's pretended exoneration empty and valueless."

The Meriden, Conn., *Republican* is justly severe on the New Haven papers which refuse to support the party nominees simply because their favorite failed of the nomination, and adds: "If the Republican ticket should happen to be elected with out their assistance, as now seems probable, their mortification will be greater than it now is over their failure to control the State Convention."

The St. John *Telegraph*, in anticipation of the assembling of the Dominion Parliament, does not believe the gloomy forebodings of the opposition press will be realized. While it regrets the changes in the Cabinet, it sees no weakness of the Administration threatened, and thinks that the opposition would develop its lack of strength should it risk a test vote on the election of Speaker.

An investigation at Jefferson City, Mo., develops evidence that under Gratz Brown's administration certain Democrats actually stole four stone walls, valued in the aggregate at about $10,000. Granite to that amount mysteriously disappeared from the stone works of the Penitentiary, and nobody seems to know where it has gone.

NO HOME.

When the honeysuckles bloom,
And the weeds flutter o'er
Their mates in the June,
As they have for years before,
My heart flutters for
A home—sweet home,
And crieth out for June
Home and rest.

When wild roses shed their leaves
Over the rude walk made sacred to
And I think of the summer
Days gone by,
Days over them have flown,
My heart with them goes,
Yearning, year by year,
Days over of the rock
Changeless and dear.

When the night-winds in the pines
Sing their songs of the sea,
And I seem to be rocked
As my mother rocked me,
And dream I am lying
Below the grass, bird's nest,
With the grass above me sighing,
In dreamless rest—

I'm sweet to know a home
Awaits me, so still,
Neath shadows of leaves,
On a rock-bound hill,
There my father's ashes lie,
There on Mother Earth's breast,
My heart will find a home
Home and rest.

By the President of the United States of America:

A PROCLAMATION.

Whereas by an act of Congress, entitled "An act to enforce the provisions of the fourteenth amendment to the Constitution of the United States, and for other purposes," approved the twenty-third of April, anno Domini one thousand eight hundred and seventy-one, power is given to the President of the United States, when, in his judgment, the public safety shall require it, to suspend the privileges of the writ of habeas corpus in any State or part of a State whenever combinations and conspiracies exist in such State or part of a State, for the purpose of depriving, any portion or class of the people of such State of the rights, privileges, immunities, and protections named in the Constitution of the United States, and secured by the act of Congress aforesaid; and whenever such combinations and conspiracies do so oppose and hinder the execution of the laws of any such State, and of the United States, as to deprive the people aforesaid of the rights, privileges, immunities, and protection aforesaid, and do oppose and obstruct the laws of the United States or their due execution, and impede and obstruct the due course of justice under the same; and whenever such combinations shall be organized and carried out in such numerous and powerful extent as to be able by violence either to overt aow or to set at defiance the constitutional authorities of such State, and the laws of the United States within such State; and whenever, by reason of said causes, the conviction of such offenders and the punishment of their offenses shall become in such State or part of a State impracticable;

And whereas such unlawful combinations and conspiracies so perfected for purposes aforesaid, declared by act of Congress aforesaid, to be rebellion against the Government of the United States;

And whereas by said act of Congress it is provided that before the President shall suspend the privileges of the writ of habeas corpus, he shall first have made proclamation commanding such insurgents to disperse;

And whereas on the twelfth day of the present month of October the President of the United States received from the Governor of the State of South Carolina, in the United States, a communication, in which the Legislature of said State, which was then in session, informed the President of the United States, that such combinations and conspiracies did then exist in the counties of Spartanburg, York, Union, Chester, Laurens, Newberry, Fairfield, Lancaster, and Chesterfield, in the State of South Carolina, and commanding thereby all persons composing such combinations and conspiracies to disperse and retire peaceably to their homes within five days from the date thereof, and to deliver up their arms, and the United States marshal of the district of South Carolina, or to any of his deputies, or to any military officer of the United States within said counties, all arms, ammunition, uniforms, disguises, and other means and implements of war kept, possessed, or controlled by them for carrying out the unlawful purposes for which the said combinations and conspiracies were organized;

And whereas the insurgents engaged in such unlawful combinations and conspiracies within the counties aforesaid have not dispersed, nor have they peaceably to their respective homes, and have not delivered to the marshal of the United States or to any of his deputies, or to any military officer of the United States within said counties, all arms, ammunition, uniforms, disguises, and other means and implements war kept, possessed, or controlled by them for carrying out the unlawful purposes for which the combinations and conspiracies were organized, as commanded by said proclamation, but do still persist in the said unlawful combinations and conspiracies aforesaid;

Now, therefore, I, ULYSSES S. GRANT, President of the United States of America, by virtue of the authority vested in me by the Constitution of the United States, and the act of Congress aforesaid, do hereby declare that, in my judgment, the public safety especially requires that the privileges of the writ of habeas corpus be suspended to the end that such rebellion may be overthrown, and do hereby suspend the privilege of the writ of habeas corpus within the counties of Spartanburg, York, Union, Chester, Laurens, Newberry, Fairfield, Lancaster, and Chesterfield, in said State of South Carolina, in respect to all persons arrested by the marshal of the United States, for the said district of South Carolina, or by any of his deputies, or by any military officer of the United States, or by any said other person acting under the orders of said marshal, deputy, or said military officer within the said counties of Spartanburg, charged with any violation of the act of Congress aforesaid during the continuance of such rebellion.

In witness whereof I have hereunto set my hand, and caused the seal of the United States to be affixed.
